

Stierli-Bieger Bends Almost Anything

Stierli-Bieger Stierli-Bieger offers the widest range of horizontal and radial benders—with capacities from 9 to 900 tons. Stierli benders meet the bend, form or straighten specifications of fabricators bending everything from ship frames to pipe supports, from electrical components to hooks and hardware, and from RR rails to busbar components. If you need it, we'll bend it. Stierli-Bieger benders are exclusively available in the U.S. from Boschert USA www.boschertusa.com
